BULGARIANS START A NEW OFFENSIVE

Macedonian Situation Now Said to be Grave and to be Growing Uncertain

(By Associated Press.) LONDON, Nov. 16.—The Macedonian situation is uncertain. It is possible that the reinforced Bulgarians have started a new offensive. They are aiming to force the Bahuna and Katchanik passes and thus reach Perlepe Monastir. The allies want guarantees regarding Greece's position. They plan sending troops and establishing a new front in the Balkans. Greece has announced it will treat the Serbians the same as the allies. Holland is declaring that it does not intend mediating for peace. Asquith is hopeful that voluntary recruiting will succeed.

CITIZENS TO MEET FOR CHRISTMAS TREE

ORGANIZATION WILL BE MADE PERMANENT AND WILL SEEK TO AID ALL

A meeting of Tonopah citizens, men and women, will be held Thursday evening in the office of H. E. Epsline to arrange for the giving of a Christmas tree festival to the little folk of Tonopah on the afternoon of Christmas Day. This is not for those who have Christmas trees in their own homes or at the lodges or orders to which their parents belong, but for those who would otherwise pass the day with cheer and with a proper celebration of the event. The exact time and the place for giving this festival have not yet been arranged, but will be announced in the Bonanza in due course of time.

The people who are planning this movement have another plan, which will be evolved at the meeting Thursday evening. It will be to provide cheer and sustenance for the older folk as well, and it will be done without publicity. There is little poverty in Tonopah on the oncoming of this winter, as compared with one former year, but there is some and it is the intent of the leaders in this movement to see that none of it remains unrelieved. At all events the meeting is one which should and will be well attended, so that an organization may be formed.

GOOD WATER PROSPECTS FOR RALSTON VALLEY

Goldfield Tribune: We believe water can be developed in the Stonewall mountains, stored in a natural reservoir and the entire Ralston valley be reclaimed. Last winter we took the matter up with the reclamation service, but they were taking on no new projects. The L. V. & T. railroad cut through the valley and we are of the opinion that some day the desert valley of Ralston will be made to bloom like the Hanging Gardens of Babylon.

MUSICAL COMEDY SHOW THIS EVENING

STRANDED COMPANY WILL BE TENDERED A BENEFIT AT THE AIRDOME

The members of the Twentieth Century Maid's Musical Comedy company will be given a benefit this evening in the Airdome in order to permit them to subsidize and to get out of town. The men and women of the troupe seem to have been handed a hard deal here and at Goldfield and through mismanagement of the show the players are positively stranded, owing board bills and other indebtednesses.

The company will put a good play on this evening. They are grateful for the aid that has been extended them since they were left in such sore straits. It is expected that there will be a large house, that everybody will get his money's worth and that the players will net enough money to get them out of town to their next stop. It is to be hoped that our good people will be present tonight in larger numbers.

INDICATIONS THAT LEDGE IS NEARING

The crosscut in the Gypsy Queen on the 1350 level is now out 125 feet and the heading is still in the matrix trachyte, but the formation is growing more siliceous and harder, while at the same time the flow of water is increasing. The management anticipates striking the ledge in about 25 feet more. This property has been idle for a year, although it has showings that would seem to have caused its operations to be continued. This property is now being financed by its general manager, Joe Josephs, who is in San Francisco working on the proposition. The directions have come to the superintendent, Mr. Sherwin, to install a Balliet counterbalance, and this will be done at once, in order to make the cost of operating cheaper, so far as the use of power is concerned.
